

August 10, 2018

Chief Kaleiwahea
Thurston County FPD 11
10828 Little Rock Rd
Olympia WA 98512

Chief Kaleiwahea:

Washington Surveying and Rating Bureau (WSRB) has completed its evaluation of the fire protection capabilities of your community as they relate to fire insurance rating. It is our pleasure to inform you that the Protection Classification (PC) for Thurston County Fire District 11 has improved from Protection Class 5 to Protection Class 4, effective December 1, 2018.

Thurston County Fire District 11 was also evaluated for WSRB Tender Credit, and it was determined that the community will retain this PC rating credit.

A Protection Class (PC) 4 rating will apply to dwelling and commercial properties located within five road miles of a responding fire station and having standard fire hydrant distribution and water supply. Properties in the community not meeting the above requirements will receive a different PC rating.

Per our previous discussions on Station 1-5, properties within five road miles of only Fire Station 1-5 at 10346 Langworthy Rd. will have their PC rating changed to a PC 9A rating because this station is closed.

Protection Class ratings for individual dwelling and commercial properties are available free of charge by calling WSRB Customer Service at (206) 217-0101 or emailing customerservice@wsrb.com. We recommend residents of your community contact their insurance agents to determine the relative effect this new community protection classification will have on their insurance premiums.

We wish to thank you and your staff for the cooperation during the evaluation.

Please find enclosed a copy of the new Protection Class Report. This report shows the various items evaluated and points associated with each item. The points total for all items determines the Protection Class of the community.

This survey was not conducted for property loss prevention or for life safety purposes. The purpose was to gather information needed to determine a fire insurance relevant Public Protection Classification that may be used to develop fire insurance rates or loss costs. Our evaluation criteria incorporate many national recognized standards, such as those developed by NFPA and AWWA, and has been filed with and approved by the Washington State Office of Insurance Commissioner.

If you have any questions, please let us know.

Sincerely,

Eric Cunningham
