Fire Chief Drake
West Thurston Regional Fire Authority

Fire Chief Drake,

Washington Surveying and Rating Bureau (WSRB) has completed its evaluation of the fire protection capabilities of your community as they relate to fire insurance rating. We wish to inform you that the Protection Class (PC) for Thurston County Fire District 11 has remained a Protection Class 4.

A PC 4 rating will apply to dwelling and commercial properties located in the community within five road miles of a responding fire station and having standard fire hydrant distribution and water supply. Properties in the community not meeting the above requirements will receive a different PC rating. Protection Class ratings for individual dwelling and commercial properties are available by calling WSRB Customer Service at 206-217-0101 or emailing customerservice@wsrb.com.

Thurston County Fire District 11 was also evaluated for WSRB Tender Credit, and it was determined that the community will retain this PC rating credit. As indicated in our February 28, 2024, letter, WSRB identified Fire Station 1-4 and Station 1-6 were not meeting the minimum staffing criteria to retain the PC of the community. Since then, your department has taken necessary measures to resolve these issues, and both stations will be rated PC 4.

We wish to thank you for your hard work and your cooperation during the evaluation.

Accompanying this letter, you will find a copy of the new Protection Class Report. This report shows the various items evaluated and the credit attained for each item.

Please note that the WSRB survey was not conducted for property loss prevention or for life safety purposes. Rather, the purpose was to gather information needed to determine a fire insurance relevant Protection Class that may be used to develop fire insurance rates or Loss Costs. Our evaluation criteria incorporate many nationally recognized standards, such as those developed by NFPA, ICC and AWWA.

If you have any questions, please let us know.

Sincerely,
